

CLERGYMAN CAUGHT STEALING FROM COMPANY'S TILL

Continued Pilferings Cause Detection of Arcata Pastor.

COINS WERE MARKED

Millionaire Lumberman and an Employee Keep Watch.

EUREKA, Cal., Sept. 17.—Rev. Henry T. Adams, pastor of the Protestant Episcopal church of Arcata, twelve miles from here, was arrested last night on a charge of robbery and is at liberty today under bail of \$1,000. He is widely known in northern California church circles.

Adams, it is charged, was caught in the act of pilfering from the cash drawer of the Union Water Company. N. E. Falk, millionaire lumberman and president of the company, and Len Yocum, an employee, are the complaining witnesses. Both declare they saw Adams enter the company's premises and take the money. They also charge that he presented and secured change for a five dollar piece which they had placed in the till—another time.

Plans which led to Rev. Adams' arrest were laid when the water company's officials found continued shortages in their petty cash. After all plans to find the leak seemed to have failed, company officials began watching all persons having access to the portion of the office where the cash drawer is situated. To this office Adams used to come for a morning smoke, and continued investigation eliminated from suspicion all persons but one.

Two five dollar pieces and a number of silver coins were marked and placed in the drawer, and it is charged that Adams, after visiting the office, asked the clerk to change one of these pieces.

Still unsatisfied, Falk and Yocum waited his return and began watching him. In a few minutes Yocum sprang into the office and called for aid. Adams, it is asserted, turned over to the officials money in his pockets, and the arrest followed.

FORMER SENATOR CARTER IS DEAD

Montana Man Prominent for Twenty-two Years in Congress.

WASHINGTON, Sept. 17.—Former United States Senator Thomas H. Carter, of Montana, for years a notable and picturesque figure in national politics, once chairman of the Republican national committee and since last year chairman of the American International Commission, died at his home early today of infarction of the lungs. He was 57 years old.

Carter had been under the care of a physician for months. His ailment, a filling of the lungs with clotted blood, became acute about a week ago. A Baltimore specialist was summoned last Wednesday and at that time the attending physician expressed confidence in the patient's recovery. But the malady became worse and death resulted at 2 o'clock this morning. Mrs. Carter and their sons, students at Georgetown University, were with him when he died. The funeral service will be held here Tuesday at St. Paul's Roman Catholic church. Interment will be at Mount Olivet cemetery, this city.

TWENTY-TWO YEARS IN OFFICE

Carter had a remarkable career. It extended over twenty-two years of congressional and official life at Washington. This embraced service from the first representative elected from Montana, two terms in the United States House of Representatives, and executive position as commissioner of the general land office; chairman of the Republican National Committee in the second and unsuccessful campaign of William Howard Taft for the presidency; president of the house of United States commissioners for the Louisiana Purchase Exposition at St. Louis and since last March chairman of the newly created "International Joint Commission on American Section," especially charged with Canadian boundary matters.

An Ohioan by birth, an Iowa boy by adoption and a Montanan long before the territory was admitted to statehood, Carter jumped to the front almost from the outset of his work in Congress. Perhaps the most remarkable of all his achievements was his defeat of a big river and harbor appropriation bill which he regarded as a political "grab" measure, during the McKinley administration.

TALKED AGAINST TIME

President McKinley did not favor the bill and Carter always a strong administration supporter, began a speech against it at 10:30 o'clock at night and talked continuously all of the day following when the session of Congress expired. As a lieutenant of Senator Aldrich, the Republican leader of the Senate for many years, he also did notable work.

At one time Carter was mentioned as a possible successor of Assistant Justice Moody of the Supreme Court of the United States and it was said President Taft had considered him for

OIL TANKS EXPLODE

Los Angeles Fire Threatens Loss of Quarter Million Dollars.

LOS ANGELES, Sept. 18.—Fire of an unknown origin attacked the plant and storage tanks of the Hercules Oil Refining Company between Los Angeles and Vernon early today, baffling the efforts of firemen to control it and threatening to destroy property worth a quarter of a million dollars.

At 2 o'clock eight immense storage tanks had exploded, each with a loud report and a flash that could be seen for miles. Twenty-five others, the fire fighters said, were doomed as there was no possible way of quenching the flames.

The fire was discovered by a watchman shortly after 1 o'clock. It spread from the refining room to the tank nearest the engine room and in fifteen minutes the tank with its contents aflame, blew up. Other tanks, heated red hot, followed in rapid succession.

The refinery is situated just outside the city limits of Los Angeles and has practically no fire protection. Apparatus was sent from here but owing to danger from explosions and a lack of valuable fire hydrants little could be done. The firemen said the fire probably would burn uncontrolled for a day or more.

SOLDIERS BOYCOTT CHEYENNE, WYO.; BUYING IN DENVER

DENVER, Sept. 17.—Because the Cheyenne, Wyo., street railway company sees fit to charge 10 cent fare from Cheyenne to Fort D. A. Russell, soldiers from that military post yesterday chartered a special train and came to Denver to do their monthly shopping.

Merchants of Cheyenne are stockholders of the street railway company, and are standing behind the corporation. The soldiers first boycotted the street railway company and then the merchants. Monthly shopping excursions to Denver, more than 100 miles from Cheyenne, are the rule. The soldiers say, until the street railway company comes down to a nickel fare.

JAPANESE FISHERS KILLED IN FIGHT WITH AMERICANS

SANTA BARBARA, Sept. 17.—Two Japanese fishermen were killed in a desperate three hour fight between Japanese and American fishermen on Santa Cruz island last night, according to a report that reached here today. A sheriff's posse set out tonight for the scene to investigate.

According to the report, the battle followed an attempt by the Japanese to drive the whites off fishing grounds near Santa Cruz island.

The island fishing grounds is owned by the Claire estate of San Francisco.

TO FLY LENGTH OF MISSISSIPPI RIVER

ST. LOUIS, Sept. 17.—Hugh K. Robinson, the aviator, has been nominated by the Trans-Mississippi River Flight Association for the Mississippi flight of the joint hydro-aeroplane flight of 1911 miles, which, if accomplished, will set a new world's record for cross country flying.

Robinson will start from the surface of Lake Calhoun, Minneapolis, Wednesday morning, October 11th. He will fly for a purse of \$20,000 raised by the river cities in which he is to give hydro-aeroplane exhibitions.

SMUGGLED OPIUM FOUND.

BELLINGHAM, Wash., Sept. 17.—Immigration Officer Fawcett of Customs, this afternoon captured thirty-five pounds of smuggled opium valued at \$1500. John Marcus of Portland, Ore., who admitted bringing the contraband drug across the international boundary was arrested.

The secretary of the interior to succeed Richard A. Ballinger. Among the men suggested as a possible head of the Republican national committee for the campaign of 1912, the former Senator's name had been mentioned. His defeat by a Democrat for reelection to the Senate caused Carter's retirement from that body. He was a member of the joint hydro-aeroplane flight of 1911 miles, which, if accomplished, will set a new world's record for cross country flying.

The honorary pilot honors will be Chief Justice White and Associate Justice McKenna of the United States Supreme Court; James A. McPherson and Frank S. Steiwer, members of the high court, commissioners, Senators Beveridge, Penrose and Crane; former Senator William E. Chandler of New Hampshire; Hannis Taylor of Washington and Attorney General A. G. Galloway of Montana who is now in the East.

COLFAX FIRE CAUSES DEATH; HEROIC RESCUE

Aviator Fowler Assists in Saving Victims of Hotel Blaze.

MAY BE INCENDIARY

Guests Awakened By Man Afterwards Severely Injured.

COLFAX, Sept. 17.—One man is dead, another between life and death with both legs broken, and a third is missing, as the result of a fire, probably of incendiary origin, which broke out here at 2 o'clock this morning on the third floor of the Mountain View hotel and consumed a considerable part of the tower. It finally burned itself out against the brick walls of the Newman grocery store. The loss is in the neighborhood of \$25,000.

The blaze was really conquered by a brigade of volunteers composed of practically the entire population. Prominent in the front ranks was Aviator Robert G. Fowler, who is preparing to scale the high Sierra to-morrow on his third leg of his transcontinental aeroplane trip.

The Southern Pacific fire train, after a record run from Blue Canyon, twenty-four miles away, in twenty-eight minutes, aided greatly in subduing the flames.

John Wesley Dugger lost his life in the conflagration, and Henry Hurst may be fatally injured.

SAVES SLEEPERS

Hurst was the hero of the fire. He was in front of the building when the blaze broke out, noticed the smoke pouring from the windows, and without thought of personal risk rushed into the burning structure and aroused those sleeping on the second floor and in the inmates of the room. Hurst did not awake breaking down the barrier and pulling the sleeper from his bed. Hurst succeeded in getting every one from the building with the exception of Dugger. Believing that for the safety of the hotel, Hurst started for the stairs, only to find them enveloped in flames and the corridor dense with smoke.

He ran to the front of the building, hesitating a moment, plunged to the sidewalk, twenty-five feet below, bruised and bleeding, he was picked up by the assembled crowd. A physician was summoned and an examination showed that both of Hurst's legs had been broken and that his right arm was internally injured. He was rushed to a hospital and is at present in a critical condition.

Another man whose name is unknown on account of the fact that the guests register of the hotel was burned, is missing.

TOO FIGHT FRENCH

From the hotel the blaze spread to an adjoining saloon, then to a meat market owned by Dan Russell. By the time the fire brigade arrived, these buildings were a mass of flames. Before the water could be turned on the blaze became too hot for the firemen, and they were forced to retreat, leaving the hose behind them.

Fanned by a slight wind, it quickly spread to the street and spread to the bakery, then consumed a vacant store, and finally broke before a brick wall of a grocery store.

By the time the flames crossed the street, the apparatus from Blue Canyon had arrived, and, reinforced by the Colfax fire engine, succeeded in getting the fire under control.

Aviator Fowler was awakened by his mother in his room at the hotel shortly after the fire broke out. Quickly donning his clothes, he rushed to the scene and there was no one to help him. He fought his way through the flames, his shirt sleeves were hanging there, directing the almost hopeless work of the fire fighters, lending a hand where necessary and setting an example that was followed by each of the firemen.

THIRD AVIATOR IS TO TRY LONG TRIP

C. P. Rodgers Is to Compete With Fowler and Ward.

NEW YORK, Sept. 17.—C. P. Rodgers, third aviator to start on the transatlantic flight for the Hearst prize, was here today to start his flight. Rodgers is a resident of Sheepshead Bay and today, swept in a wide circle over the grounds, headed northwest over the Jersey Meadows and disappeared.

He drove a Wright, and was accompanied by two men, one of whom is New York Mayor McCarthy's son, and the other is a member of the command of the eastern division of the army and navy to the commanders of the Pacific Coast.

Lying over New York City, Rodgers crossed Broadway at height of 5000 feet and covered the mile from that point across the river in less than a minute.

The aeroplane measured only thirty-two feet from tip to tip, while the aviator stands 6 feet 4 inches and weighs 182 pounds. Rodgers is confident that it will land him in San Francisco, how-

TENTH MAN DIES FROM AUTO RUNAWAY

STRAUSE, N. Y., Sept. 17.—Harry Bradley of Franklin, N. Y., one of those injured by Lee Oldfield's car when it crashed through the fence at the state fair, died today. His death brings the list of those killed to ten. Half a dozen of the score or more who sustained injuries still are in a critical condition.

Lee Oldfield, driver of the automobile, is in a serious condition with a fractured rib and internal injuries, but he is expected to recover.

LIFE CONVICT ESCAPES IN WOMAN'S CLOTHING

COLUMBUS, Sept. 17.—Michael Sobolowski, a murderer serving a life sentence, walked out of the Ohio penitentiary today disguised in a light flannel coat and a white skirt belonging to the wife of Warden John Jones. His features were concealed under an old hat and a white veil. Under the disguise he wore a gray suit belonging to the warden's son.

Sobolowski who was a tailor, had been a trustee for the last five months and was accorded the freedom of the warden's apartments, having the duty of pressing the clothing of the family. He was sentenced to the penitentiary for the murder of an aged couple of Toledo, Ohio, June 22, 1909. The crime attracted much attention because of its barrowing details.

MOB DEMANDING BREAD BREAKS OUT IN VIENNA; 6 KILLED; HUNDREDS HURT

DYING BOY URGES FATHER TO PREACH FOR THE PRESIDENT

Pathetic Feature of Taft's Sunday at Erie; Off for Detroit.

ERIE, Pa., Sept. 17.—President Taft spent a quiet Sunday here. With Secretary, Hilkey and Major Butt he was the guest over night at the home of Charles E. Strong.

He had breakfast, luncheon and dinner at the Strong home, attended church this morning, took an automobile ride through the city and suburban district, and after a quiet evening with his host boarded his private car shortly before 11 o'clock. He left for Detroit after midnight with two hard days of speaking in Michigan before him.

Today's program of rest was just about like that laid out for the President for the remaining Sundays of his six weeks' trip. He will rest all he can on the first day of each week.

The President was deeply moved tonight when he learned that Henry W. Rymer, son of Rev. Thomas H. Rymer, pastor of the Unitarian church where he attended services today, died only last Friday. Before he died the boy called to him and said: "Don't let my death prevent your preaching before the President."

His father remembered and although his grief was still fresh, he preached before the President. Tonight Taft sent him a message of sympathy.

News of the automobile disaster at the Syracuse fair last night, which after he left the grounds yesterday, reached the President today. He immediately sent a telegram of regret to H. M. S. Handy, president of the Syracuse chamber of commerce. It read as follows:

"Have just learned of the deplorable accident and am deeply sorry for the injuries to the automobile races. I extend to the families of the deceased and to the management of the fair my heartfelt condolence and sympathy. I earnestly hope that the injured are recovering."

NORTH CAROLINA MOB MAY LYNCH NEGRO ASSAILANT

Father Assisted Posse in Capturing Miscreant After Three Are Shot.

WARRENTON, N. C., Sept. 17.—Lynchings are threatened tonight for George Marshall, a negro who late yesterday attacked Mrs. Joe Choplin, the wife of a farmer at Vicksboro, fourteen miles from here, killed her father who attempted to rescue his daughter and later shot the sheriff and two members of his party.

Marshall barricaded himself in a house after the crime. The sheriff and his posse surrounded the place and the negro succeeded in shooting the three men.

The house was watched all night and early today the negro's father, by a ruse, entered it, and with other negroes overpowered the criminal and admitted the posse. The men bound Marshall and brought him to the jail here.

News of the crime spread rapidly, and tonight the residents of Warren and Vance counties are thoroughly aroused. It is reported that a mob will attempt to break into the jail tonight and lynch Marshall. The officers are preparing to prevent a lynching.

ALARM IS FELT FOR STOLYPIN

Attack of Peritonitis May Prevent Recovery of Wounded Premier.

KIEV, Sept. 17.—The condition of Premier Stolypin, who was shot by Dmitri Bogrov at a gala performance in the municipal theater Thursday night, is causing alarm. Peritonitis has set in and the patient's heart action has considerably weakened.

The following bulletin was issued this afternoon:

"A change for the worse in Premier Stolypin's condition set in last evening. Symptoms of local peritonitis were noticed, with indications of effusion of blood under the diaphragm. At 6:30 o'clock this morning the patient's temperature was 98.5, pulse 90, respiration 26 to 28. The temperature two hours later was 99.5, pulse 104, respiration 24 to 26.

"The bandages were removed at 10 o'clock and the mouth of the wound was found to be in a satisfactory state. The bullet was felt under the skin and removed, a local anesthetic being employed. The patient seemed to be improving very rapidly."

"The Premier showed no improvement during the day, but the doctors hopelessly expressed the opinion that there was no great cause for alarm. The midnight bulletin, however, was not reassuring. It read:

"Late tonight Mr. Stolypin is still showing symptoms of peritonitis. Temperature 98, pulse 116 to 120, respiration 25."

CONGRESS IS UNLIKELY TO POSTPONE ELECTION

Mexico Continues Disturbed in Spite of De La Barra's Efforts.

MEXICO CITY, Sept. 17.—Unless conditions in Mexico become much more critical within the next few days, it is believed Congress will refuse to grant the petition of the anti-Maderistas to postpone the special election. The application for a new date will be read in the chamber tomorrow and referred to a committee, which doubtless will lose no time preparing its report.

Hits are reported from time to time and the activities of the Zapatistas in the south, the Magonistas in the north and the disgruntled bands in the state of Vera Cruz and elsewhere serve to remind the government that peace is not entirely destroyed. The deputies appear to believe, however, that postponement of the election would result in far worse conditions.

Most of Zapata's men have been driven from Morelos into Puebla and Guerrero, where they have been joined by forces recruited by Andres Balmora. Federal troops are in pursuit but only the most optimistic believe the rebels will be dispersed before October 1, the date of the election.

BRIDGES BLOWN OUT.

A band of Zapata's men blew out two bridges on the railroad connecting Puebla and Cuyutlan today. Reports from Chiapas tell of the backing of the town by the rebellious mob for whose existence the only excuse given is "discontent."

An unofficial poll of the chamber of

TROOPS CALLED TO STOP DISORDERS SHOOT INTO CROWD

VIENNA, Sept. 17.—Traceable to the high prices of the necessities of life, riots broke out today and many persons were killed or wounded. Troops fired on the mob which had erected barricades in the streets. There was a fierce exchange of bullets and the soldiers were pelted with all sorts of missiles.

Following a huge socialist demonstration outside the Rathaus, held in protest against the high prices of food, troops were called out to disperse the crowd. In the early clashes fifty civilians were wounded and one hundred arrested.

Fifty thousand persons were present at the demonstration and fiery speeches were made demanding that the government permit the importation of foreign meat and take other measures to remedy the conditions that have resulted from the prohibitory increase in the price of food.

After the meeting a large procession marched to the parliament building cheering for revolution and Portugal. Revolvers were fired in the air and then the mob began stone throwing. The windows of many public and private buildings, restaurants and tram cars and street lamps were smashed.

Finally a squadron of dragoons and a detachment of infantry charged the rioters and dispersed them. The mobs reassembled, however, in the suburbs where they are occupied by the working class, where they wrecked more property. The troops were retained throughout the day, guarding the Imperial palace and government buildings and holding approaches to the inner city.

STREETS DARK.

Towards evening the rioting in the Ottakring quarter became more furious. The mob demolished all the street lamps in the main thoroughfare, plunging the streets into darkness. They erected barricades, hurled missiles of various kinds on the soldiers from the upper windows of houses. The order was at length given to the troops to clear the streets. Many rioters fell, either killed or injured. Several of the soldiers and policemen also were injured and 100 more of those engaged in the conflict were placed under arrest.

The agitation is the culmination of months of bitter discontent over the steady increase in the cost, not only of food, but of lodging, clothing and all the necessities of life, and unless par-

ETNA'S ACTIVITY IS DIMINISHING

But Flow of Lava Continues to Be as Destructive as Ever.

SIRACUSA, Sicily, Sept. 17.—Although the eruption of Mount Etna seems to be losing something of its activity and the earthquakes are less frequent, the immense flood of lava which has spread down the mountain continues its work of destruction. There are now five main streams stretching for miles over the country. Professor Rizzo, director of the observatory on top of Mount Etna, says the initial speed of the lava at the mouth of the crater has slightly diminished but that incandescent material is still being poured out perhaps in as great quantity as in the first few days. Several cones have formed near the new craters, varying from 65 to 100 feet in height. A new mountain, 700 feet high, has sprung up and is emitting smoke and cinders.

A great procession of peasants, bearing a statue of Christ, today marched in front of the advancing lava, and offered prayers for the immediate cessation of the flow. Hundreds went to the home of a blacksmith where it was reported a miracle had occurred. The lava had been diverted from his house and the peasants believed it due to a picture of a saint hanging on the door. But today the lava stream turned again, completely destroying the blacksmith's home.

deputies shows a majority are anti-Maderistas, although not opposed to the revolution. It appears that General Bernardo Reyes has but a small personal following in the chamber, although greater than that of Madero. This would indicate that the deputies will vote for a postponement but those who have discussed the question declared the danger of creating another revolution is too great for them to vote in accordance with their personal feelings.

Francisco I. Madero is strengthening his forces in the south. He spent today in Campeche and plans to visit the state of Tabasco tomorrow. His trip into Yucatan doubtless served to improve the chances of his running mate, Jose Pino Suarez. Yucatan is Pino Suarez' own state, but it is doubtful, notwithstanding the advent of Madero, if he will be able to count upon its support.

General Reyes has practically stopped campaigning. Madero's only danger of defeat is what the Vasquez brothers may do in the next two weeks. Both Emilio and Dr. Francisco are gaining supporters, chiefly from the ranks of Madero.

MAN IS KILLED; WOMAN ATTACKED

Posses Scour Florida Woods for an Unknown Negro.

JACKSONVILLE, Fla., Sept. 17.—Cicero Thomas, a carpenter, aged 45, was killed and a woman whom he was accompanying home was attacked by a negro at Nertogo, a suburb of this city, early today. A lynching is feared if the black is engaged.

The couple were escorted by the negro who, without warning, fired point blank at Thomas, killing him instantly.

The woman stood terror stricken and was next attacked by the negro, who choked her into unconsciousness. The scene of the crime is a lonely spot. The woman finally regained consciousness and sought out some neighbors, who gave the alarm. A posse was formed and the woods in the vicinity have been scoured without result.

GOLDFIELD SUFFERS FROM ANOTHER FIRE

Proprietor of Tailor Shop Is Arrested on Charge of Incendiarism.

GOLDFIELD, Nev., Sept. 17.—Fire originating in a tailor shop burned a half dozen downtown buildings here today and threatened the entire business section.

Among the buildings gutted was the Turf saloon, an old time headquarters of mining stock promoters. This is the second fire within a week and the origin of which is not well explained. Following an investigation, the police arrested Frank Pett, proprietor of the tailor shop.

HURT IN BASEBALL GAME.

SAN JOSE, Sept. 17.—Joseph Sletzer, a former baseball pitcher and a wealthy owner, Mountain View rancher, is suffering from concussion of the brain as the result of an accident during a baseball game at Mountain View this afternoon. Sletzer was hit over the ear by a pitched ball by Ross of St. Mary's College. Sletzer had allowed another hit near a run up to the time of his injury, which occurred in the seventh inning.

GREAT CANADIAN BATTLE IS DRAWING TO A CLOSE

Something About Issues and Leaders—Diverse Interests of the Various Provinces.

The general elections of Canada, which will be held on Thursday, September 21, are expected to be decisive on Canada's attitude toward reciprocity between that country and the United States, and on the continuance in power of the Liberal party under the leadership of Sir Wilfrid Laurier. The American Congress has already ratified the reciprocity agreement, and after a protracted deadlock in the Canadian Parliament the question of Canada's ratification was at last referred to the judgement of the people. The elections occur, consequently, in all the provinces which make up the Dominion of Canada. As originally constituted the Dominion was composed of Upper Canada, including the extensive English sections of Ontario, Lower Canada, including the extensive French sections of Quebec, Nova Scotia and New Brunswick. Later the British North American Act of 1867 admitted British Columbia, Prince Edward Island, the North West Territories and Newfoundland.

A poor substitute for a well-known medicine pays more profit to dealer than to patient. That's the reason he annoys you with his claim that it is "just as good." And that's one reason why you want Dr. Pierce's Favorite Prescription should go to a reliable dealer. Every woman who suffers from any ailment peculiar to her sex, if she takes down a bottle of this medicine, she will find it a valuable remedy for every female complaint, and weakness, it is the only safe remedy for it contains no alcohol. All the ingredients being printed on its bottle wrapper, contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice.

This gives the present Laurier government a normal majority of 43 out of a total membership of 211. To defeat the Government the Conservative opposition must make a gain of 25 seats, while to carry on the government must make gains of at least 25.

ISSUES AND LEADERS.
Sir Wilfrid Laurier, now 70 years of age, has been Premier of the Dominion for over 15 years, since June, 1896, when his party, the Liberals, defeated the Conservatives under Sir Charles Tupper, Bart., known to Canadian politicians as "the old war horse of Cumberland," from the name of his first constituency, in the native province of Nova Scotia. Sir Wilfrid is a French-Canadian, and his own province, Quebec, with its overwhelming French population, has already given him strong support.

Sir Wilfrid has toured five of the nine Canadian provinces during the campaign, and everywhere he has maintained that the reciprocity agreement was a purely business transaction and that the loyalty of Canada was not to be trafficked for any trade advantages.

The Conservative opposition has been under the leadership of Robert Laird Borden, of Halifax, who first challenged the reciprocity pact before the Canadian Parliament and afterwards carried the contest before the people. The grounds for this opposition are twofold: On the one hand the Conservatives are high protectionists and they contend that the present agree-

WOMAN ESCAPES OPERATION
Was Cured by Lydia E. Pinkham's Vegetable Compound
Elwood, Ind.—"Your remedies have cured me and I have only taken six bottles of Lydia E. Pinkham's Vegetable Compound. I was sick three months and could not walk. I suffered all the time. The doctors said I could not get well without an operation, but for I could hardly stand the pains in my sides, especially my right one, and down my right leg. I began to feel better when I had taken only one bottle of Compound, but kept on as I was afraid to stop too soon."—Mrs. SADIE MULLEN, 2728 N. B. St., Elwood, Ind.

Why will women take chances with an operation, or drug out a sickly, half-hearted existence, missing the fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?
For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration.
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

Good Typewriters At Low Prices
If you want to get a typewriter at the lowest price, see us about it. We have all of the standard makes of machines which we are selling at low prices. They are machines that we have bought and repaired. They have been used but are in the best of condition.

ment, is but an entering wedge, while on the other hand they contend that trade under such a reciprocity pact is a commercial disaster. The United States and Canada, which could not but weaken the British connection, and would eventually bring about the annexation of Canada to the United States.

During the campaign on the stump and in the newspapers, the utterances of President Tupper that "Canada is at the parting of the ways" and that the binding Canada to the Empire was so slight as to be almost imperceptible, have been used to prove that the United States has ulterior designs on her Canadian neighbor, while the annexationist sentiments attributed to some American public men and newspapers have aroused the cry that reciprocity is the forerunner of annexation.

Ontario, the great industrial and agricultural province of Canada, has the largest population and the greatest number of seats at issue, 88 in all, as against 66 seats for Quebec, the next largest province. Ontario has been strongly Conservative for many years. The province was peopled in the early days by the United Empire Loyalists who fled from the thirteen colonies when the American revolution proved successful, and sought British territory to settle upon again.

The annexation cry possesses a strong appeal, and the Opposition has had its emissaries hard at work in the United Empire Loyalist districts. The brunt of the defense of the reciprocity measure had fallen upon George F. Gieson, who on the stump and through his newspaper has been making a vigorous campaign. Hon. Mackenzie King, the Minister of Labor has also been active on behalf of the measure. William Patterson, one of the authors of the pact, is an old man, and has been kept busy in his own constituency, while Sir Adam Aylesworth, who resigned a few days after dissolution as Minister of Justice, is precluded by deafness from taking an active part, but he would be liked in the campaign. High Gutteridge, who seems slated as Aylesworth's successor and A. G. Mackay, the Liberal leader in the provincial field, have also been among the most active supporters of reciprocity before the people of Ontario.

On the opposite side, the economic and sentimental argument against the measure have been set forth strongly by George Eulus Foster, the Finance Minister in the last Conservative administration, and other leading candidates of the opposition. Sir James Whitney, Premier of Ontario, Frank Cochrane, Minister of Mines of that province, and W. J. Hanna, Provincial Secretary, have also taken a part in trying to defeat the pact and the government.

While the reciprocity pact is the main point of attack there are several charges of scandalous conduct in administration, and a number of local questions which have aroused heated controversy.

PROVINCE OF QUEBEC
The French-Canadian Province of Quebec is considered the pivotal point in this contest, as it was prior to the time Sir Wilfrid Laurier came to power. In 1896 the Conservatives carried only 18 of the 65 seats in the province, but they carried eleven seats in 1908. Since 1908 the political complexion has changed in the French province. In 1910 the government adopted the Navy Bill, by which it was decided to establish a Canadian navy, but under the control of the Canadian government in times of peace, and to become part of the British navy in time of war. The regular Conservative opposition under R. L. Borden proposed as an amendment a large cash contribution, to be used by the British Admiralty, but this proposal was defeated. The French Conservatives, led by R. D. Monk, of Montreal, objected to both proposals. They were backed by the group known as Nationalists in the province of Quebec.

The Nationalist group, headed by Henri Bourassa and Armand Lavergne, former supporters of Sir Wilfrid Laurier in the Canadian parliament, has consistently opposed any policy which would bring Canada into the foreign wars of the British Empire. Up to that time, though both men were members of the Quebec Legislature, they had kept out of the Federal arena and had not attacked Laurier. With the rising of the naval issue, however, they began a series of public meetings and caused the signing of thousands of petitions protesting against the naval programme.

Bourassa, who is a grandson of the late Louis Joseph Papineau leader of the Canadian rebellion of 1837, is a man gifted with great oratorical powers and wields the masses by the vehemence of his appeals. He is especially effective in speaking French, for he appeals to the people of that race to show themselves the equals of their English-speaking fellow-citizens in all things, and kills their pride as no one else does.

In the campaign Bourassa and Monk are working together. Monk is opposed to the reciprocity pact on economic grounds; Bourassa says reciprocity is a national issue and was adopted by the government only to throw dust in the eyes of electors and make them forget the naval programme. Bourassa is not himself a candidate, but he has addressed meetings in most of the constituencies in the Montreal district. He has especially tried to visit the places where Sir Wilfrid Laurier spoke in his first tour of Quebec province, to destroy the effect of his former leader's appeals.

The Nationalist combination has Mr. N. D. Ford, who conducts a printing office at 1716 Everett street, Alameda, called last week to give us the following facts:
About six weeks ago he was asked to go to a bedside to witness the signature to a will. A San Francisco attorney was in the room reading the will while the attorney left and Mr. Ford asked the patient what the trouble was. She said that she had Bright's disease, and she wanted to know how she could get it cured. She showed Mr. Ford her feet and ankles. They were swollen in enormous proportions—nearly as thick as her arms. The doctor and the legs had turned black from knees down.

The priest had been called the day before, and his belief was that the patient could not survive until Sunday, then four days away.

Ford asked the patient if she had ever heard of Funt's Bone-Breaking Kidney Pills, and she didn't know anything about it. He urged her to get it and persist in it. It was procured that afternoon.

Three days thereafter will be signed to know how the patient was getting along. Her sister replied that she was getting steadily worse. He urged her to continue it, and she slept a night.

Ford was in a few days ago and found her in use his own expression, "as happy as a bird." The lady was normal and happy, and the swelling left by the bursting skin, due to the excessive drooping, patient was feeling very much better. In fact, is already planning to go away.

These occurrences like those he has mentioned are being sent to physicians who have patients daily dying on dietetic, milk-eggs and bananas' mixtures.

PRIEST SAID THE LAST RITES
Mr. N. D. Ford, who conducts a printing office at 1716 Everett street, Alameda, called last week to give us the following facts:
About six weeks ago he was asked to go to a bedside to witness the signature to a will. A San Francisco attorney was in the room reading the will while the attorney left and Mr. Ford asked the patient what the trouble was. She said that she had Bright's disease, and she wanted to know how she could get it cured. She showed Mr. Ford her feet and ankles. They were swollen in enormous proportions—nearly as thick as her arms. The doctor and the legs had turned black from knees down.

The priest had been called the day before, and his belief was that the patient could not survive until Sunday, then four days away.

CHINESE SECURE OFFICERS' ARREST
Legal Muddle Involved in Fight on Bakersfield Opium Dens.

BAKERSFIELD, Sept. 17.—At the instigation of the Chinese consul general of San Francisco and the Chinese Six Companies, a warrant was issued by Justice Marston for the arrest of Deputy Sheriff Charles Badger on a felony charge. The trouble grew out of the assault alleged to have been committed by the officer on Aw Yung Wai, when the Chinese turned the stream of water from a garden hose upon the officer, who was in the act of making a pencil sketch of premises upon which opium was supposed to have been illegally sold. A warrant was refused by Assistant District Attorney Scott.

Judge Tam, an attorney for local Chinese interests, and Carroll Cook referred the case to Attorney General Webb. Cook was advised by him to exhaust every means of securing a warrant in Kern county before taking the case to the Supreme Court. It was the plan in case all efforts here failed to apply to Chief Justice Beattie for a warrant and to call the case before him.

NEWS OF NATIONAL AND WOLTERS COL.
NATIONAL COLONY, Sept. 17.—Miss Lillie Anderson spent a few days last week with her friend, Miss Amanda Hanson, south of town. Clarence Bond of The Dalles, Ore., is visiting his cousin, Clayton Hanson, in Kern county before taking the case to the Supreme Court. It was the plan in case all efforts here failed to apply to Chief Justice Beattie for a warrant and to call the case before him.

MANY AT FUNERAL OF LINDSAY WOMAN
LINDSAY, Sept. 17.—Funeral services were held yesterday afternoon at the M. E. church over the remains of Mrs. William Wilson, who died in Porterville Thursday, after an operation for appendicitis. Rev. C. D. Hicks officiated. Many beautiful flowers were an evidence of the high esteem in which Mrs. Wilson was held here. Mrs. Wilson had lived in this city for about two years. She was a native of Maine, aged 55 years.

LOCAL BREVITIES
In a raid on a haystack this morning by Patrolmen Caldwell and Miller, five men were arrested and lodged in jail for vagrancy. They gave their names as William Johnson, Joe Martin, Edward Lynch, W. F. Rogers and Frank Costello. R. E. Johnson and William Crawford were arrested last night by Patrolmen Pickens for vagrancy.

BODY MESSAGE
for ladies only at the Unique Hair Dressing Parlors.

SASKATCHEWAN.
In Saskatchewan, the population is largely composed of American farmers who have come over from the Middle West, and they are strong for reciprocity. R. W. Haultain, the provincial leader of the Conservatives, is making a fight against the agreement, while J. D. Tupper, with the support of Walter Scott, the provincial Premier, is supporting the agreement.

ALBERTA.
In Alberta, Frank Oliver, Minister of the Interior, is having a strenuous fight. He has been attacked by his fellow Liberals, and the House was dissolved just two days before the scheduled opening of an investigation into his disposal of an alleged election fund said to have been sent to him from New York during the campaign of 1905. Oliver, formerly Premier of the province, was nominated at the regular Liberal convention to oppose Oliver as a Liberal, but he withdrew from the fight. A. G. Cross, a former Attorney General of the province, is still active in his opposition to Oliver, while R. B. Bennett, the Opposition leader in the provincial house, has resigned his position to contest Calgary for the House of Commons in opposition to the pact.

CLEARANCE SALE REFRIGERATORS

Here's opportunity for Refrigerator buying that will not be offered you again
And the Refrigerators offered are the sort that will give you real Refrigerator satisfaction.
They are here—they occupy space we need, and need badly—need it so badly that profitless prices have been placed upon every Refrigerator remaining in the house.
They must go and go quickly and these prices certainly ought to accomplish, appealing to you as they do, all that we desire to accomplish.
Are you not coming today to secure yours?
All we want is 10 per cent above cost.

Vernon Slips Two Cogs and Drops to Second Place in the Race.

PORTLAND, Sept. 17.—Portland took both games of a double header with Vernon today and by doing so regained the leadership in the pennant race. The first contest, which took to the home team by a mixture of misadvised plays by Vernon in which Castleton, Hogan, Brezhear and Patterson figured as stars and by some hard hitting by the Beavers. Hans hitting for Patterson in the second and by Carlisle and Kane in the eighth gave the Tigers their counts.

The Beavers robbed the second game in the fourth after tying the score in the third inning. The fielding by the Pecknouth

The McKillop team of Fresno lost to Laton yesterday in a close, hard fought battle of thirteen innings. The score was 2 to 1. It was indubitably the best game that has been played on the local grounds this season. Bler and Henry composed the battery for the McKillops and Gully and Troutner for Laton. The visitors made their lonely tally in the first of the sixth-inning on a wild throw to third. Laton came back in their half and tied the score. Laton secured four single hits off Blier's delivery and a three-bagger by Troutner and a two-bagger by F. Ross were also made and were prominent in the game. Gully pitched a wonderful game for the locals and the visitors were unable to grab but two hits. Laton struck out sixteen men and walked none. Bler struck out six and walked two. Troutner brought in the run that won the game in the last of the thirteenth inning on a long drive to right field by F. Lucas. The fielder fumbled it, and the runner scored.

Bittels' Prize Flinger Deserved a No-Hit, No-Run Game.

BITTELS, 2; TIGERS, 1.

Bill Budge's Bittels, with Southpaw Masow in rare form, took the measure of these Terrible Tigers at Recreation Park yesterday in a fast and exciting exhibition of pastime. Circus catches, too numerous to count, kept the score down to 2 to 1.

Aside from these brilliant stops and running stunts, the hurling of Masow was the whole show. He held the hard-hitting league leaders to four scattered hits, three of which were flukes. Johnny King Preston grabbed the only clean drive, while Duncan and Earl Preston broke into the hit parade.

HARRY JOHNSON IS TOO LUCKY FOR

Seals Play Good Ball in Double-Header, Dividing the Count.

SAN FRANCISCO, Sept. 17.—Oakland and San Francisco broke even on today's double-header, but Oakland won the series, 4 games to 3. San Francisco was shut out in the morning game, Ables striking out six men. The locals took a home run. Hoffman made a home run. In the afternoon game Christian was taken out in the ninth with one man on base, none out and two runs against him. Gregory, who relieved him, made a wild pitch, letting in the winning run. Scores:

(Morning Game.)
OAKLAND, 1; SEALS, 1.

Arnsby's Rainin Grabbers, with the old reliable Ben Hill on the mound, slipped the crusher on Rooding's Olive Oilers, 3 to 1, at Recreation Park yesterday morning. Casper Ehat did the grunting for the locals and the Pecknouth catching. The score was 7 to 0 in favor of the Rainin men until the last three rounds, when the Oilers began to pound Ben Hill. Seven runs evened up the score, but the Grabbers put over the winning mark in the last of the seventh. The winners challenge any team from packing house row.

The game was featured by the big league hitting of "Stanford" West of the Oilers, who, in the second, pitched "Beane" Corlew at first base for the same team. West pounded out three hits in three times at bat. The lineup follows:

Arnsby—Paynter, 3b.; Cobb, cf.; West, 1b.; Hill, p.; O'Connell, ss.; Lee, rf.; Terry, lf.; Corlew, 1b.

Rooding—Stapp, lf.; Forrester, c.; John Steele, ss.; Spang, 3b.; Ehat, p.

Sacramento Takes the Series; Tie Battle Comes Off This P. M.

LOS ANGELES, Sept. 17.—Los Angeles ran second to Sacramento in both games today, thereby losing all chance to win the series and incidentally sinking deeper into the cellar. The morning game, a well played affair, resulted 2 to 4 and the afternoon contest, a jumble of hits, errors and slow base-running, ended 9 to 8.

With more speed on the bases Los Angeles would have won the afternoon game. Eleven Angel hits were made against an equal number by the Senators while the visitors made four errors against the home team's one.

C. Fred Grundy has sound Johnny Jenkins to drive a Cole car in all the events. Harry Harlick is expected to be the second-Cole plug in the races. Spoh cars as the Mercer, Flat, Cadillac, Thomas, Winton, Spat, Cadillac. The winners have already signified their intention of taking part in the Phoenix endurance run; for in this contest, it is explained, the various entrants will be put through a severe grueling. The greater part of the route lies through desert country, over mountainous and sandy roads. But the financial rewards are temptations to the drivers, the total cash prizes being close to \$8,000, there also being handsome trophies.										
The driver that reaches San Diego from Los Angeles first, and he will have to cover close to 150 miles in a desert country, will receive \$3,000. The driver that reaches El Centro first receives \$1,000; the one that reaches										
the first winner three. In the last of the seven weeks, the second place, second and scored on two successful runs by Sheraton Means. Stevenson's bare-handed catch up against the fence was worth walking to Clovis and back. Massey's superb hurling broke the winning streak of Ward and showed the Hitties into a tie with the McAfees for second place. The score:

SAN FRANCISCO, Sept. 17.— Walter Pomeroy, the Olympic Club athlete who recently swam the Golden Gate swim across San Francisco Bay today, making an estimated distance of three miles in a few minutes more than two hours. Henry Helms, George Helms and W. Pomeroy started with Pomeroy but were forced to give up before completing the swim.

Pomeroy is the second person known to have made this swim, the other being Dr. F. H. Hill of this city. The

feetive in the second, striking out ten men before he was compelled to leave the game with a broken little finger on his pitching hand. Walter Blittels batted straight at Cheney and in trying to protect his face, the pitcher was hurt. Scores:

THE WAY TO WEDLOCK.
 "The young woman who works as a nurse for my friends and has a better chance of marrying well than the young woman who sits at home doing nothing."
 The speaker, John Barrymore, then smiled and resumed:
 "I was asked by two ladies conversing on an Atlantic City pier. A smartly dressed girl rolled by in a chair, and one of the ladies said:
 "There's Miss Smith. Didn't she go for a nurse?"
 "Yes," was the reply, "she came back with a doctor. Her name is Mrs. M. Price Cutter now."

GOMPERS, NATIONAL LABOR LEADER, IN FRESNO, IS TO SPEAK TONIGHT

Large Crowd Grooms Him at Station With Band; Declares Migratory Labor of California Must Be Carefully Handled.

Accompanied by five representatives of the local organized labor, who met him in Bakersfield, Samuel Gompers, president of the American Federation of Labor, arrived in Fresno last night at 7 o'clock. The labor leader was met at the Southern Pacific depot by a band of twenty-four players from the local musicians' union and by a throng of more than a thousand people. As the train pulled into the station, the great crowd pressed in to get upon which Gompers was riding and it was almost impossible for him to make his way to an automobile in waiting to carry him to the Grand Central hotel, where he had engaged rooms.

At the head of the American labor movement stepped into the machine, the crowd gave a rousing cheer, to which Gompers responded with a word of thanks. The procession then started for the hotel, the band playing the lead. All along Mariposa street people lined the sidewalks to get a glimpse of Gompers and a crowd of several hundred acted as escorts for the automobile.

Through the courtesy of the Farmers Union, a table loaded down with fresh grapes of many varieties and bottles of sweet wine, had been prepared in Gompers' room and when he saw them expressed great surprise. An informal reception was held in his room after which he, accompanied by local and state labor leaders, was taken to the Pleasanton cafe for dinner. After dinner, Gompers was taken for a short automobile ride about the city.

Gompers, being accompanied through the state by G. A. Tveitmo, secretary of the State Building Trades Council and Paul Scharrerberg, secretary of the California State Federation of Labor. Both these men are in Fresno with him. B. Moore, secretary of the Kern County Labor Council, accompanied Gompers and the Fresno delegation from Bakersfield.

BERN HERE BEFORE
This is the second time Gompers has been in Fresno, but the first time since Fresno was really a city of any size. He was here twenty-one years ago. Although he had little opportunity of seeing the town, he said last night that he was impressed by the stability shown in the buildings. When he was here before, the city was in a primitive stage and he remarked that as he came from the train, he noted the change that had taken place.

Speaking of labor conditions generally in the state of California, he has observed them since he arrived here the first of this month. Gompers said he found them generally satisfactory, with a strong labor sentiment.

"There is one condition here, however, that needs careful handling," he remarked, "and that is the presence of so much migratory labor. This has been handled very carefully to get the best advantages for the men themselves and for their employers. It is necessary that the activities of the migratory class should be for the best interests of both employers and employees and for this reason, great care should be exercised in handling them."

"McNAMARA INNOCENT"
In the course of his brief talk, Gompers took occasion last night to say a few words about the McNamara dynamiting case, which is now capturing the attention of the labor world.

"I visited them twice while I was in Los Angeles," he said, "and they have more than fortified my confidence of their innocence. I will have them released."

THROW OUT THE LINE
Give Them Help, and Many Fresno People Will Be Happier.
"Throw out the Life Line."
The kidneys need help.
They're overworked—can't get the poison filtered out of the blood.
They're getting worse every minute.
Will you help them?
Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair.
Fresno testimony proves their worth.

Mark Nidever, 305 Isabella street, Fresno, Cal., says: "I was afflicted with kidney complaint for many years and was caused much suffering. The kidney secretions were unnatural, and I had but little control over them. I tried remedy after remedy, but continued to suffer and was at a loss to know how to get rid of my trouble. Finally Doan's Kidney Pills were recommended to me, and as they were said to cure many cases, I procured a supply at the Baker & Colson Drug Co. I have taken the contents of about four boxes and I can say they have given me great relief. I take pleasure in giving Doan's Kidney Pills my endorsement."

For sale by all dealers & Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

GREEN FRUIT SHIPPING HERE PRACTICALLY FINISHED NOW

About Fifty Cars More of Malagas to Go; Being Held.

Tokays Being Packed in Redwood Sawdust for Christmas Trade.

The green fruit season in Fresno and vicinity is practically over, according to an announcement made yesterday. There are about fifty carloads of Malagas yet to be shipped and then everything will be finished. While the fact that the season is over will make it almost impossible for local green fruit men to take similar action as that taken by Sacramento Valley men, in holding off shipments until the market is better, still it was stated yesterday that the malagas that are to be shipped will be held until October, in the hope that the market in the east may be clarified.

Notwithstanding the fact that the bulk of the season's production was sold on a fallen market, the green fruit men are anxious to get any benefits, no matter how slight, and it is for this reason that the last malaga shipments are to be held over until October.

In the regions above here, the Sacramento Valley Improvement Company is packing large quantities of tokays in redwood sawdust in forty and 100 pound drums for storage until Christmas, when they will be shipped to eastern markets and sold fresh. The work being done under the supervision of a Fresno man, who has had success in experiments along this line, and it is believed the grapes can be kept fresh and eatable until along in February. Heretofore cork and pine have been used for packing, but cork was too expensive and the pine imparted a disagreeable odor to the fruit.

MEXICAN DROWNS IN KINGS RIVER

While swimming in Kings River near Piedra, a station on the Santa Fe about twenty miles from Sanger, a Mexican was drowned yesterday afternoon. Coroner Bean received word of the drowning last night and left for the scene to hold the inquest. He is expected to return to Fresno this afternoon. The message received by the coroner was to the effect that a Mexican laborer for the Santa Fe had been accidentally drowned. It is supposed that the body has been recovered, otherwise the coroner would not have been notified.

MRS. S. L. WILEY ASKS FOR INVESTIGATION

Claims State Regent, D. A. R., Has No Right to Hold Her Office.

(Special to the Republican.)
SAN FRANCISCO, Sept. 17.—Mrs. S. L. Wiley, regent of the Fresno chapter of the Daughters of the American Revolution, has issued a call to the members of that organization throughout the state to investigate the election of Mrs. W. W. Sillson of Los Angeles to the chair of the state regent, after Mrs. W. W. Sillson had been endorsed by the California conference.

That the difficulty seems to be altogether in the mind of the Fresno chapter, is the opinion of a number of the members of the San Francisco chapter, who state that Mrs. Sillson has absolutely no right in the office. The meeting will be held next Saturday at the Palace hotel.

Mrs. Charles W. Moore, a member of that organization, in the Fresno chapter this morning. She said: "There can be absolutely no doubt of the validity of Mrs. Sillson's election. The California conference has the right to nominate, but has no right to vote. When that conference was held here last February, Mrs. Sillson received one vote, Mrs. Sillson, and at the national congress, held at Washington, D. C., the state delegates reversed this decision—that is all there is to it. The election is held by the states at the national congress, and the state delegates have the right to elect as they see fit."

BIG CROWD APPLAUDS GOOD BAND CONCERT

"Frisco 1915," Composed By James Gearhart, Is Given Ovation.

"Frisco 1915," composed by James Gearhart of Fresno, was given a tremendous ovation last night at one of the best band concerts that Tilton's band has rendered this season. Last night was the first time the piece composed by Gearhart was given to the public and it made a decided hit. The selection was played at the Sequoia High Links.

A fairly large crowd listened to the concert last evening and every one was highly pleased with the careful program that Conductor Tilton had prepared. The law from the fountain to the court house steps was crowded with people, as well as the benches in front of the bandstand. There will be only two more concerts.

INDEPENDENT WINE MAN GIVES STORY OF CUT IN PORT PRICE

Outside of Combine Responsible.

Says No Surplus of Sweet Wine Now in This State.

In an interview to the Sacramento Bee, given on Saturday—the same day that another concern, at a declaration of war in the California sweet wine business came out of San Francisco—S. M. Sheehan, president and manager of the Sacramento Valley Winery, and a leading independent, made known the story of the cut in the independent face ruin because of price cutting. He further blamed the recent slashing on people outside the "trust" and gave an account of how the price was cut on port wine. Further, he said that he believed that there he denied that there is a surplus of port in the state. He said: "The assertion that the independent element of the wine industry will go to ruin unless conditions are changed, is absolutely incorrect. By way of explanation it may be stated that one of the contending elements in the wine industry in California is the California Wine Association with the minority it owns throughout the state and the majority it has with the Italian-Swiss Colony, Lachman & Jacob and C. Schilling & Co. The other element consists of the independent wineries of the state, such as the Las Plumas Winery and Vineyard of Fresno, the winery of M. E. Turley and Arthur Tarpey of Fresno, the great plants of A. Mattioli and the Barton Vineyard Company of Fresno county, the Italian Vineyard Company of Los Angeles with its 5,000 acres of grapes, the Cucamonga Winery, the big plant of Lucene, Blatz, Olsen, Anderson, the Velti Co., and the Vache Co. of the southern part of the state, the Lodi Co-operative Winery of Lodi, with its annual crush of 10,000 tons; the Elk Grove Growers' Association Winery of Elk Grove, the In the Winery of Elk Grove, the Pincer Colony Winery of Roseville, the Bradford Winery of Briceville and the Sacramento Valley Winery of Sacramento."

GOES INTO HISTORY.
Giving the history of the wine business in the past year, he told how independents got together about a year ago to lift things out of the "rut." Later, he said, leading independents got together with the California Wine Association and entered on a campaign. As a result, he said, new prices for wines were announced, but some manufacturers selfishly stayed out.

Going into a history of the recent cut, he said: "A representative of one of the largest eastern purchasing houses and dealers in California wines, came to the coast for the express purpose of buying nearly a million gallons of wine. He interviewed the management of the California Wine Association and the management of practically every independent winery in California. 'So long as' he talked with men who thought something of their word of honor, he was told he must pay a certain figure for his wine, but when he went into the camps of those who would not affiliate with the uplifting movement, he saw readily that he could buy under the market. 'And he did buy. The news carried fast, and immediately there was discontent. The organized competing elements which were trying to hold the wine market steady, said to themselves, 'How long shall we permit this? Shall we hold the umbrella over these selfish ones indefinitely?'"

"The answer came quickly. The independents claimed the California Wine Association had cut prices. The California Wine Association claimed that some of the independents had cut the price, and in twenty-four hours the air was full of accusations. DOWN GOES PORT.

"Down went the price of port wine from 25 cents a gallon to 23 cents. The California Wine Association made the first announcement. The independent wineries followed suit by instructing their representatives all over the country to meet the competition and the situation today is as unstable and chaotic as it can be."

He said that the price of port wine had been cut to such an extent that the price of other wines will be reduced if the condition continues, and unless there is some sort of an adjustment, there will be no telling where the prices will go because there were but much bitterness said, a determination to fight the game to the last ditch.

"The independent wine makers of California control 70 per cent of the sweet wine made in the state, while the balance is controlled by the various wineries and the three houses with which it is allied, namely: The Italian-Swiss Colony, Lachman & Jacob and C. Schilling & Co."

Touching on a hope for better conditions, he added: "This general view of the situation would not be complete were I not to correct the statement given to the public that there is a great surplus of port wine in California. This is absolutely wrong. I have interviewed every independent sweet wine maker in California directly or indirectly during the last two weeks, and I find that nobody has an appreciable surplus of port."

TRUST MAY BE SHORT.
"It might be said that I do not know anything about the stock of port that the California Wine Association and the wineries it controls has on hand. This may be true, but I do know that it is reasonable to suppose that the trust houses are short of their normal stock of port wine else they would not have bought during the last eight months over one million gallons of sweet wine from the independent wine makers."

Conceivably, when it is endeavored to convey the idea that there is an unusual surplus of port wine in first hands in California, I feel it my duty to make a correct statement based on actual knowledge by reason of being in a position to acquire that knowledge—else I am correctly as anyone in the business."

BOYS SUSPECTED OF FALSE ALARM

Although several little boys at the corner of G and San Joaquin streets yesterday morning declared that they had seen a woman turn in a false alarm, Fire Chief Whitehead is under the impression that the false alarm was turned in by the youngsters and they made up the other story to keep themselves out of trouble. The alarm was sent in from box 28 and the fire department, upon responding, were unable to locate any blaze.

NOVEL FEATURES AMONG CONCESSIONS FOR COUNTY FAIR

Man Who Fasts for Long Periods and Deep Sea Divers on List.

More Side Attractions on Tap Than Ever in Fair's History.

Concessions for the Fresno county fair, to be held here early next month, have been let on a scale never known before, and as a result a very excellent line of side attractions for visitors is promised. The concessions are expected to include some elaborate side-show features, which would make a show worth while, even without the splendid exhibits and the fine race features which are now being put into shape for the fair.

Concessions will be in charge of two experienced men, C. E. Hoffman, who handled them at the recent state fair, with much success, and C. M. Pyke, an ex-Fresnoan with long experience in the theatrical business.

Some of the special features are absolutely novel. Of course, there will be the merry-go-round, novelty booths, lunch counters, and all those things usually seen at a fair. Besides, there will be a big force wheel, which is not quite so usual even these days. But some of the other features in sight are absolutely unique.

In this class will come R. D. Kinchelow of this city, the "fast man." He is not going out for any speed records. No, his specialty is to sit in another sense. He has gone without eating for forty-eight days at a time, and he proposes to promulgate his never-eat doctrine in a tent at the fair, with some demonstrations as to how it may all be done. He says he has adherents all over the country.

Then, there are the "Deep Sea Divers," with whom contracts are now being considered. The divers install a large glass tank, fill this with water, and donning the helmet and dress of the men who brave the depths of the ocean, they drop into the water, and show the full working of the system. It is one of the most novel side-show ideas ever yet put forward, it is declared, and has worked successfully elsewhere.

And there are others of these concessions. In fact, the part of the fair grounds devoted to them is expected to be nothing less than a young Coney Island during the day, and to blossom forth at night as a second "Great White Way."

However, strict precautions are being observed in letting the concessions, and it is announced that everything is to be maintained on a high standard and with as much regard for the protection of the public as for its amusement.

COUNTRY SOCIAL LIFE SUBJECT OF ADDRESS

Minister Says Building Up of Social Side Needed for Advancement.

That the building up of the social side of rural life is as necessary to the advancement of this country as the building up of the productive side, was the substance of an address given yesterday by Rev. Ernest Bradley of Talmadge Center, Marin county, at St. James' Episcopal church.

Rev. Bradley, in the course of his address, pointed out how the social side was necessary to advancement, one of the reasons advanced being that it relieved rural communities from routine and the "rut" into which so many fall.

The failure in the past to build up the social side of rural life, he said, was in a great measure responsible for the failure of some people from the country into the cities, a condition which should not exist. He said he believed the country communities ought once more to become one of the co-ordinating forces of national life.

Rev. Bradley is also a great advocate of children's playgrounds and spoke to some extent on them and the advantages to be gained by the installation of them.

DARROW EXPECTED IN FRESNO TODAY

Clarence H. Darrow, Leading Counsel for the McNamara Brothers, Expected to Arrive Here Tomorrow.

Clarence H. Darrow, leading counsel for the McNamara brothers, labor leaders under indictment at Los Angeles for the dynamiting of the Los Angeles Times building last fall, is expected to join Samuel Gompers in Fresno today. Darrow is coming from Los Angeles and will leave for the north with Gompers.
